

The Nitty Gritty Dirt Band, Thunder And Lightning

I remember our first night together
It was rainin' cats and dogs, when we made love
Made the most of all that stormy weather
That's what this ol' night reminds me of

Thunder and lightning
Nothing like a storm
Cozy up beside me honey
And let me keep you warm
Nothing more invitin'
Then a good one comin' down
Born two rainy day lovers
Who love to hear the sound
Of thunder and lightning

The rhythm of the rain outside the window
Always brings a sparkle to your eye
It's music to my ears each time the wind blows
We know how to spend a stormy night

Chorus

No, we don't need no sunny day-ay
Just turn the lights down low
And let it rain

Chorus
