

# The Noisettes, IWE

Am I the caller of your keep  
Am I the catcher of your fall  
Am I the staller of your gaze  
You leave me in a daze  
You take your jump I'll make my leap  
Feel freedom coming, we can have it all  
We are the ones to lead the way  
We'll leave them in a daze  
We'll leave them in a daze  
We'll leave them in a daze  
We'll leave them in a daze  
I Carried you down from the fortress  
I don't know when to draw the line  
That's not the way that you should do thee That's not the way that you should screw me  
Make the jump or I'll take my leave  
Just like icicles burning my eyes out  
We are the ones to seize the day  
I'll tell you that we'll leave them in a daze  
Who will lead the way  
Who will lead the way  
Tell me while you leave them in a daze  
Change your, change your ways  
Just before I slip away I said  
We'll leave them in a daze  
Iwe, iwe, iwe, iwe
