

The Notwist, Kong

Something more than this
Don't be long
Others are coming in, others are coming in
House will fall, and we'll go on

Might take more to tell
About you're strong
Are you coming, are you coming?
Left our song, left our song

The world was mine, it's ours
Someone's always fond to cold
And the rain, it wouldn't stop
And the rain, the rain, the rain, the rain
The water filled the room and the house got scrapped away

Won't you come to town?
On your strongs
Are you coming, are you coming?
Drop our song in our spot
It's close cause I believe in this
Cause I believe in this
Cause I believe in this
Cause I believe in this
