

The Notwist, The Devil, You Me

we know we're not the smartest
in this place we don't have to be
lights are out, but anyhow
this is what they see

it's the devil,
it's you and me

we know we know
when snow will fill our window
a yearlong winter's done
and all is white
we'll pack our things
and leave this town,
cause this is what they see

it's the devil
it's you and me

bring it on home, and keep it warm
won't leave you anyhow
