

# The Oak Ridge Boys, Come On In (You Did The Best You Could Do)

When I get tired and a little lonely, the worlds turned it's cold back on me  
When I'm about to swear I ain't got a friend left to my name  
Instead of sinking a little lower I start making tracks on over  
To a place where the sun shines day and night and where I know I'll hear you say

Come on in, baby take you coat off, come on in, baby take a load off  
Come on in, baby shake the blues off I'm gonna love that frown away  
Come on in, baby put a smile on, come on in, baby tell me what's wrong  
Come on in, the blues will be long gone I'm gonna love your hurt away

When I feel a lonesome night coming on, every thing I did all day went wrong  
There's a black cloud following me around and I just can't get away  
Instead of sinking a little lower I start making tracks on over  
To a place where the sun shines day and night and I know I'll hear you say

Come on in, baby take you coat off, come on in, baby take a load off  
Come on in, baby shake the blues off I'm gonna love that frown away  
Come on in, baby put a smile on, come on in, baby tell me what's wrong  
Come on in, the blues will be long gone I'm gonna love your hurt away

Come on in, baby take you coat off, come on in, baby take a load off  
Come on in, baby shake the blues off I'm gonna love that frown away  
Come on in, baby put a smile on, come on in, baby tell me what's wrong  
Come on in, the blues will be long gone I'm gonna love your hurt away
