

The Only Ones, It's The Truth

Something's been going wrong
I'm all mixed up
And I don't know what's going on
Gotta talk to you
I gotta talk to you

Something's been going wrong
I'm all fixed up
And I don't know what's going on
Gotta talk to you
I gotta talk to you
It's the last time
That I'm ever going to

Some people they're gonna say
I told you so
But I never really appreciated you
But if those fools could only know
What it means to me
What this thing means to me
What this whole stupid thing means to me

My memory is fading away
I don't remember what I came here to say
Gotta talk to you
Coz all I know
I gotta talk to you

And if I don't say a word
You'll know that it's the truth

(guitar solo)
