

The Only Ones, Strange Mouth

I've been, down south
I don't wanna be there again
I've seen, your mouth
I don't wanna see it again

Strange mouth
Waiting to consume your meat
Strange mouth, craving
Flesh as well as blood

Bye bye, my love
I don't wanna see you again
For a long, long time
I ain't gonna see you again

I know, it's hard to believe but I know
What's happening to me, oh

(music break)

They've cap-tured me
Completely unawares
I've never, seen
Hungry faces quite like theirs

Strange mouth
Waiting to consume your meat
Strange mouth, craving
Flesh as well as blood

Before, I go
I hope someone's listening to me
It's torn the flesh from my bones
And left the inner me
I'm undone, it's happened to me
I've become, a cannibal's meal
