

# The Only Ones, The Big Sleep

You woke me from a big sleep  
You taught me how to think cheap  
You woke me from a big sleep  
When you kissed me... oooooohh  
On the cheek

I don't ever wanna sleep again  
Now that I've found love  
I don't ever wanna sleep again  
Now that I've found love

(guitar solo) (I've found love)

As soon as someone showed me  
There's no such thing as glory  
Changed my life completely  
Now it's a whole different story

I don't ever wanna sleep again  
Now that I've found love  
I don't ever wanna sleep again  
Now that I've found real love

(middle 8:)  
Oh in case you're wondering if I been struck dumb  
I'm cold inside and my heart is numb  
In case you're wondering if it's too late  
I won't hibernate, whoah woohoo na na na na

(guitar solo)

I don't have the strength to break an empty shell  
And I surely don't have the strength to mend it

Well,  
I don't ever wanna sleep again  
Now that I've found love  
I don't ever wanna sleep again  
Now that I've found love
