

# The Other Ones, All Day, All Night

You've got know how I feel  
You've got to know I'm missing you  
I just called to wish you all my love  
You're so far away  
(I've just a, just a) I've just a memory  
To calm the fear inside  
Oh, I'm so lonely, lonely without you

All day, all night  
I spend my time thinking of you  
I want you to come home  
All day, all night  
Oo, I want to be with you  
All day, all night

I wait to feel your tender touch  
I wait to see you in flesh and blood  
You've got to know, I'd do anything for you  
You're so far away  
Although time keeps our love apart  
Please keep in mind  
Oh, I'm so lonely, lonely without you

All day, all night  
I spend my time thinking of you  
I want you to come home  
All day, all night  
Oo, I want to be with you  
All day, all night  
I spend my time thinking of you  
I want you to come home  
All day, all night  
Although I'm missing you

All day, all night  
I spend my time thinking of you  
I want you to come home  
All day, all night  
Oo, I want to be with you  
All day, all night  
I spend my time thinking of you  
I want you to come home  
All day, all night  
Oo, well, I'm missing you  
All day, all night  
I spend my time thinking of you  
I want you to come home  
(All day, all night) I miss you so  
Oo, I want to be with you
