

The Perishers, Carefree

Carefree why can we not be?
Forever you and me
Forever me and you
Carefree
I know it's not my fault
I long to be forgiven
For whatever it is I've done
Tonight the oceans at my feet
The stars glitter just like diamonds
I'm here to drown my fears
So I can wake up empty and be
Carefree
I know we're not the same
I'm trapped for long to be free
Carefree
Sing another song
Turn the night light on
Watch me fall asleep
Tonight the oceans at my feet
The stars glitter just like diamonds
I'm here to drown my fears
So I can wake up empty and be
Carefree why can we not be?
Forever you and me
Forever me and you
Carefree let me be
Carefree always be
Carefree (carefree)
Let me be (let me be)
Carefree let me be
Always be carefree
