

The Pigeon Detectives, I Can't Control Myself

You tell me you want me
Then we both get in to a fight
You lay there complaining
And I know I won't sleep tonight

You told me that you've been here once before
You said I made you walk in to a door

But I can't control myself
You're making such a fool of me
Now I've decided we're just friends
But I can't control myself
You're making such a fool of me
Now I've decided we're just friends

You're hurt cos I hit you
But we know it's only a game
You tell me we'll make it
But I know it won't be the same

You told me that you've been here once before
You said I made you walk in to a door

But I can't control myself
You're making such a fool of me
Now I've decided we're just friends
But I can't control myself
You're making such a fool of me
Now I've decided we're just friends

You told me that you've been here once before
You said I made you walk in to a door

But I can't control myself
You're making such a fool of me
Now I've decided we're just friends
But I can't control myself
You're making such a fool of me
Now I've decided we're just friends
