

# The Pigeon Detectives, Love You For A Day

I could love you for a day  
But then i'd hate you for a week

If there was something you could say  
I'd tell you what to speak  
To make things go much easier  
For you and me  
I think you know  
The time has come for it to go no where  
Cause we just don't get along now  
And i'd rather be alone tonight  
Than have you here so we could fight again  
Cause we just don't get along now

Ive stopped answering your calls  
Because your getting on my nerves

This is it once and for all  
You'll get what you deserve  
And things will go much easier  
For you and me  
I think you know  
The time has come for it to go no where  
Cause we just dont get along now  
And i'd rather be alone tonight  
Than have you here so we could fight again  
Cause we just don't get along now

And things will go much easier  
For you and me  
I think you know  
The time has come for it to go no where  
Cause we just dont get along now  
And i'd rather be alone tonight  
Than have you here so we could fight again  
Cause we just don't get along now
