

The Plan, Fell A Mile

Easy think twice what you do
Who are you?

I fell a mile

And we end our thing now
A mile
I fell a mile

I'm alone
The night is far
It's too long while you are still here

I roll around the walls

I played straight
You were my world
Where are you from?
How do you work?

I'm alone
The night is far
It's too long while you are still here
