The Plan, The Days Just Glide In

No the days just glide in The eyes rest in the sky I hear lies

The tones just come here Try to make it my home I need to praise Them dreams that I erase

Oh father don't wake me up Don't try to wake me up Don't wake me up

And you people just live on rails I can't fix my time or space I can't take place

Oh father just wake me up Just wake me up

Oh father don't wake me up Don't try to wake me up Don't wake me up
