

# The Poguess, I love you till the end

I just want to see you,when your all alone.  
I just want to cath you,if I can  
I just want to be there when the morning light explodes  
on your face it raidiats  
I can't escape  
I love you till the end.  
I just want to tell you nothing  
You don't want to hear.  
All I want is you to say  
Ohh..why don't you just take me  
where I've never been before  
I know you want to hear me  
Cath my breath.  
I love you till the end (4x)  
I just want to be there,when were cought in the rain  
I just want to see you laught not cry  
I just wanna feel you  
When the night puts on its cloak  
I 'm lost for words don't tell All I can say  
I love you till the end.(4x)  
All I can to say  
I love you till the end
