

The Polyphonic Spree, Section 30 (Watch Us Explode)

We close our eyes and sometimes you fake it
With everyday, we try a little harder, it's true
Well, some will try and some will shake it
But everyday becomes a little harder for you

So justify all your phases
When we're human, we're always guessing
Justify all your phases
The wonder grows when we're changing

Around the time we begin
Is when the fun is setting in
Watch us explode

She dreams of lights and going places
She's feeling brave, she's gotta make it home
The rolling skies, her circling wonder
Her swinging dress dances all alone

Justify all your phases
Keep the world always guessing
Around the time we begin
Is when the fun is setting in
Watch us explode

Da, da, da
Da, da, da
Da, da, da
Da, da, da

Justify all your phases
Keep the world always guessing
Around the time we begin
Is when the fun is setting in
Watch us explode, explode, explode, explode, explode
