

The Power Station, Murderess

She says your money's safe
You needn't keep your head down
Now who's kidding who?
Her picture's all over town

I always knew that she was on the run
I read the paper and it said so
I know you like them to be troublesome
Take it to the maximum

She's a murderess, murderer
She likes to go for the jugular
Murderess, murderer
That woman of yours is a killer

I heard his breath escape
She left the gun on the floor
He left his key with me
I hadn't been there before

I always knew that she was on the run
I read the paper and it said so

I know you like them to be troublesome
Take it to the maximum

(chorus)

She says she's innocent
She says she's your 'baby face'
Ah who's kidding who?
Your things are in a suitcase

I always knew that she was on the run
I read the paper and it said so
I know you like them to be troublesome
Take it to the maximum

(chorus)

(chorus)
