

The Presets, Anywhere

Deeper,
I know you want it deeper,
You know you want it deeper,
I think we're going deeper,
I know you want it
Faster,
I know you want it faster,
I know you want it faster,
These days we're moving faster,
I think we're moving
Further,
I know we're going further,
You know we're going further,
Yeah now we're climbing further,
And I can see it
Warmer,
Yeah now you're getting warmer,
Feel like you're getting closer,
Yeah now you're getting so hot,
Feel like you're burning

Surprise surprise,
You're on your own
It's in your eyes
The love's you've known
And the one's you loved,
You lost completely

Darker,
Outside it's getting darker,
Yeah now it's getting darker,
At last it's getting darker,
And I can see it
Louder,
Yeah now it's getting louder,
The noise is getting louder,
The night is getting louder,
And i can hear it
Stronger,
And now you're going stronger,
Yeah now you're getting stronger,
You're finally growing stronger,
And I can feel it

Surprise surprise,
You're on your own
It's in your eyes
The love's you've known
And the one's you loved,
You lost completely

So let yourself down tonight,
Anywhere
I'll take you out tonight,
Anywhere
Put on that dress you like,
Anywhere
The one with birds on it, they're flying around
Now when you're short of breath,
Go anywhere
And when your heart's in pieces,
Anywhere
I'll take you out tonight
