

# The Proclaimers, That's Better Now

That's better now, much better now  
It's easy lying here, through all that sweat  
Did I forget, how much I love you dear

The tensions all been released  
Were slumbering now in peace  
So yes, somehow, it's better now

I feel it clear in my mind  
It seems to work every time

That's better now, much better now  
It's easy lying here, through all that sweat  
Did I forget, how much I love you dear

I feel it clear in my mind  
It seems to work every time  
So yes, somehow, it's better now
