

The Project Hate MCMXCIX, Crawling Through T

Hear me! Its time to rejoice
Satanic victory, the grand final choice
You, whores of heaven, its time to repent
Embrace the massacre and gods hollow voice
Crawling through the infinity
Where all is dead and gone
Walking through my black eternity
Where I impale the holy son
Carnage, I bring upon thee
Take my hand and crawl with me through the
bloodsoaked fields of infinity
His lies dont mean a thing to me
I am the essence of war
Piles of skulls I leave behind,
behead the prophet and his bloodline
See them crawl through the fields of carnage
Bloodshed, I bring upon thee,
completions, aeons of victory
Let them crawl through the fields of carnage
Im soaked in blood and so are you
I hold your hand
I hold your hand and lead you through
Youre soaked in blood and so am I
I hold your head
I hold your head, it leads me through
I bleed for you
Crawling through the infinity
Where all is burnt and gone
Walking through the ruins of insanity
Where I nail the holy son
See Christ in awe, hell be no more
Take his hand and walk in shame,
Ill walk behind and kill again
Feeble believers, this is not your time
It never was and never will be,
I rape the earth and all thats in it
And so we die alone in pain
And close your eyes and be one
And so we die alone in pain
And so we die alone in pain
I dress myself in blasphemy
And drink the wine of harlotry
Legions of Babylon! I call thee
Come! Burn the fields of eternity
I vanished in the fields
I vanished in the fields
I vanished in the fields
Infinity, banished from your god
Infinity, cursed from your god
Embraced by flames
Blessed be our realm
Your cuntng days, disgraced
Piles of skulls I leave behind,
behead the prophet and his bloodline
See them crawl through the fields of carnage
Bloodshed, I bring upon thee,
completions, aeons of victory
Let them crawl through the fields of carnage
And so we die alone in pain
Close your eyes and be one with me
I dress the whore in blasphemy
And drink the wine of harlotry
Armies of Babylon! I summon thee
Burn! Burn! Burn! Burn! Burn!
