The Project Hate MCMXCIX, Dominate

In my dominion You die But first You'll suffer pain Your wings won't fly again Awaken from Your dwell As I force Your eyes to see the lies in Christ In my dominion You die Godless You slowly burn Soulless You now return My Demons grant You hell The spirit in Your soul... Reduced to burning coal When You've failed You've failed once more... Your heart is frozen and Your body's cold Then angels' tears will fall... down from heaven When You've failed... You've failed once more... Your heart is frozen and Your body's cold Then angels' tears will fall... Charred soul, instant death Deprived of Your last breath God's angels, burnt and raped Oh, I so dominate Fallen from grace, Their laughter has died The maggot race, in vain They run for the light Demons, prepare to war for the 666 Angels, prepare to burn on the crucifix... Crucifix Arise now avengers My demons, My armies Hate, Dominate Congregate, Eliminate The angels, God's angels... Now burning, while turning... Skinless Lifeless Faithless Faceless It's so much darker now... when shadows are growing tall And the screams are louder no The screams that once were moans You died before this time Your blood still runs cold Your heart is frozen now Frozen to the core Fallen from grace, Their laughter has died The maggot race, in vain They run for the light Demons, prepare to war for the 666 Angels, prepare to burn on the crucifix When You've failed You've failed once more... Your heart is frozen and Your body's cold Then angel's tears will fall... down from heaven When You've failed You've failed once more ... Your heart is frozen and Your body's cold

Then angels' tears will fall... These tears will fall like a gentle rain One last breath These tears will fall like a gentle rain One last... last breath... I'll take You down... into the fire You will suffer, You'll wear the crown Your pain is My desire Once inside You'll scream in vain every sin known to man You'll experience with pain I'll rape Your soul 1000 times then My demons continues with Hate For the years of oppression and indoctrination I now dominate!
