

# The Project Hate MCMXCIX, Loveless, Godless,

Sinned at souls  
Save us  
We burn only for the death that awaits us  
Godless we breathe  
All that's sacred must die  
Blood fallen  
All will wither and die  
New dawning  
Blood floating  
Red rivers  
As we crawl here on our knees  
And then as we see death we see life  
...Flawless  
There is no good in man, there's only greed  
Inflicted on those left to dwell  
Weak like all God's sheep  
This is a new dawn, the turn of justice  
His wrath is upon us now  
This is the last march...  
March eternal  
This is the last march..  
Armageddon March Eternal  
And as the sun descends on these skies  
And as the sun reveals a new dawn  
Hear our roar  
Dawn...  
Hear our roar  
Dawn...  
Sinned at souls  
Save us  
We burn only for the death that awaits us  
Godless we breathe  
Armageddon March Eternal  
Armageddon March Eternal
