

The Project Hate MCMXCIX, Self-constructive On

Distract the nature with human flesh
Make your mind appealing to the scenery of hate
The void of selfcaged truth is in me
Before our eyes, godmachinery
Watch it slowly
Naked angels all around
Pieces of me
I am never to be cleansed again
Burn!
Hard to swallow, gods so hollow
Hard to swallow, hearts too hollow
Watch it slowly, naked angels all around
Pieces of me
I am never to be cleansed again
Burn!
Hard to swallow, gods so hollow
Hard to swallow, hearts to swallow
Hold on to my love, the perfect whole
The words are not needed, the pain is forevermore
Take my hand and lie beside me
Search for serenity and find insanity
I watch you burn forever whore!
Turn your heart towards the sane
Burn your soul I am profane
Inhale the truth, exhale the lie
Watch them closely as I die
I pierce my soul with bloodred scars
And burn the fragments of their hearts
Selfinflict the joy of sin
And hellcome kingdom everwin
Selfdestructive times of pain
Selfconstuctive once again
Selfinflicting minds to drain
Selfdeceiving
Watch it closely
Watch it closely
Naked angels all around
Pieces of me
I am never to be cleansed again
Burn!
Burn!
Burn!
Burn!
