

The Pupils, Never Go Down

You know that I've
Been waiting for you all this time
If you'd only smile
Give me just a little sign
Let me try
Together we can fly so high
If you'd just be mine
The sun would never go down

When I see you girl I still don't know what to do
Everybody says you want me bad let's go-go-go I know your flow
Oh baby you're so fine - gonna be so sweet, now I know you're mine?
The sun would never go down

Yeah, I see nice to know, but I don't know if I should go
With a guy I just met so, tell me really what you want from me

You don't know, hell that's ok
Let me tell you love but in the easiest way
The sun will never go down

I wonder if ya fever is a 'true love receiver'
Prove it now, tell me what will you do when I get down
But if your love is flowing like a river, if your heart beat is like mine
The sun would never go down

You're the reason for my fever - promise you'll be my girl
Cos I'll never get you down, never, ever let you down

You don't know, that's ok
Let me tell you love yeah in the easiest way
The sun would never go down
