

The Queers, Day Dreaming

Yeah, I was thinking that my life was all through
But now it ain't since I got you
Oh honey don't, don't you be so cool
Stick with me, I'll stick with you
Yeah, you taught me wrong from right
And now I brush my teeth every night
Oh honey don't, don't you be so cruel
Stick with me, I'll stick with you
I used to think some girls were really the most
But I know better now
Is this infatuation or just my imagination...
I'm daydreaming my life away 'cause of you
Yeah, I love the funny clothes that you wear
And the little things you do to your hair
Oh honey don't, don't you be so cool
Stick with me, I'll stick with you
I used to think some girls were really the most
But I know better now
I always wished I always hoped
And they always let me down
So don't say maybe 'cause I need you baby now
Is this infatuation or just my imagination...
I'm daydreaming my life away 'cause of you
