

The Queers, From Your Boy

I'm hanging 'round hoping hard
That you wanna be with me always and always
It's my way of saying won't you stick around me
For the rest of your life

I'm gonna wish on a star
That you're gonna stay with me always and always
It's my way of saying won't you stick around me
For the rest of your life

This song is straight from your boy, and it's just for you
Even though you've gone and left me alone
This song is straight from your boy, and it's just for you
Even though you're gone I can't stop loving you
I always think of you
