

# The Queers, Goodbye California

I'm gonna shake, I'm gonna shimmy too  
I'm gonna shake, I'm gonna really move  
I'm gonna ride my skateboard all the way  
I really dig your beaches and the girls they're all peaches  
Yeah, Black's beach is such a cool break too  
I don't know why I'm living this way  
Must have coppertone on my brain  
It's really fun out in the sun  
I fight the mob out in the smog  
But you can keep old Californ-i-a  
And when you fall into the sea  
Don't you look for me, I'll be in Boston Hey Hey Hey

I guess I'm not hip to your kind of trip  
Your tans don't mean shit to me

(Chorus)

So goodbye California  
It's been really nice  
Goodbye California, Goodbye California  
Make up or die

(Mean Guitar solo)

I'm going back home to see the Ramones  
Get your ass off the phone, let's go!!!
