

The Queers, I Don't Wanna Get Involved With You

Thinkin', drinkin', talkin', squawking,
And hanging out all day
Never ever doing nothing, and you know it's not my way baby
I never ever met a girl like you
I know I like you and you know it's true

And I don't want to get involved with you
I know I'm stupid, but I'm sure not dumb
I kinda like you, you may be the one

Now I've found a reason to keep living, and it's you
I found a reason to keep doing the things that I wanna do baby
I never ever met a girl like you
I kinda like you and you know it's true

(Chorus again till end)
