

The Queers, Number One

I've been told many times before
To think of number one
When I do, I guess it's true
I think I'm having fun
But lately all I ever do is think of you
And now I know it's true
No matter what you do, you're my number one

You're my number one (x6)

Every time I see your face
I'm all choked up inside
When I'm far away from you
I almost wanna hide
But lately all I ever do is think of you
And now I know it's true
No matter what you do, you're my number one

You're my number one (x6)

No more will you be hurt
So stick with me and I'll stick with you
When it's time for a kiss
Now I know just what to do

You're my number one
