

The Raveonettes, Killer In The Streets

You rising hella sure, we doing so low
And this sound from the beach will crumble
Will all the secrets weve done my friends
They say each other will be fine
I always cross the night
You always, you circle each time
I guess Ill be all the time
I dont really care
You got my arms in your hand
You kept me with you
Make sure I never forget
Theres a life with you
How embracing you ?
Can this alone with
I hate the delicate smile like is raving in night
When their coming the spread
I just start my
I chill and I should stay still
Youre the first that I bring
Its too much stupid and
And once I get you here
You dont set me
You alive in my head
Why you
And in night I make you smile
I see the cry, Ive seen it all
Ive seen the down fall
Was it truth I make you did this all
Then youll be up and blue
Like that 52, we drop the bone cucu
And is over sink you
