## The Raveonettes, Little Animals

My girl is a little animal She always wants to fuck I can't find a reason why I guess it's just my luck

So at night when she's sound asleep I head out in the rain to meet

All the things she never gave To me when I was down All the things I had to find With strangers in strange towns

But at night when she's curled up next to me I head out for the Devil to meet
