

The Raveonettes, Observations

To live like other people
I never think I'd do
And see my love i give into this dark

Flowers sing the day time
And this is sure at night
This woman said I'm torn between 2 lights

Visions of your lover's
holding you some dreadful lights
Wishing they will never be apart

It's so hard how can I hold on
To someone I can not have
Obsessed with all the things that we could do

Take me on a night drive
And take me on again
The quiet trip we're living
I'd never think I'd do
And to find someone love me really nice
