The Raveonettes, Observations

To live like other people I never think I?d do And see my love i give into this dark

Flowers sing the day time And this is sure at night This woman said I?m torn between 2 lights

Visions of your lover?s holding you some dreadful lights Wishing they will never be apart

It?s so hard how can I hold on To someone I can not have Obsessed with all the things that we could do

Take me on a night drive
And take me on again
The quiet trip we?re living
I?d never think I?d do
And to find someone love me really nice
