

# The Replacements, Only If We Must (Demo)

You learn from the past  
Well I reminisce  
You look to the future  
I see maybe at best  
A kiss for good luck  
Save it for an honest Joe  
It's too late to worry  
I guess I'll just go

So forgive me  
And maybe  
We won't turn to rust  
Only if we must  
Only if we must

Saints never preach  
And angels don't fly  
Down by the beach  
Where the seabirds die

I asked you not to breathe  
You let out a sigh  
I asked you not to breathe  
That's for you to decide

So forgive me  
If need be  
Forget about us  
Only if we must

Angels wait under reach (?)  
For the time run  
I let out a sigh  
If I reminisce  
Then you're the past  
I maybe at best  
And all (???)

Forgive me  
And if need be  
I will turn to dust  
Forget me if you must  
Only if you must  
If you must
