

The Residents, The Man In The Dark Sedan

I'm the man in the dark sedan and I have come to take your hand
I was sent down here to be sincere, truthful and steadfast
I came to say that judgement day of man has come to pass
You can follow me and I guarantee to take you far away
But we must leave before the eve of everlasting gray
You will leave this place and soon replace the names of those you know
With a brotherhood that has withstood the leeches and the snow
