

# The Rifles, She's Got Standards

If you're a new band breaking be aware cause she won't be far behind  
But if you've got no airplay she won't care and you better move aside  
Cause she'll be down south top ten in her mouth with the blink of an eye  
She'll be top draw on the backstage floor till the new band arrives

Ooh she's got standards but your cool if you're at twenty five  
Ooh she's got standards till you put the twinkle in her eye  
So you better cover up boy

If you're a new band breaking be aware cause she'll never leave your side  
Cause if the n.m.e. say you're so cool and they really like your style  
She'll be down south top ten in her mouth with the blink of an eye  
She'll be top draw on the backstage floor till the new band arrives

Ooh she's got standards but your cool if you're at twenty five  
Ooh she's got standards till you put the twinkle in her eye  
So you better cover up boy
