

The Riverdales, Rehabilitated

she sits inside the dayroom
chain smoking cigarettes
watching something totally stupid
on the tv set
but she's not as bad as she used to be
the poor thing should be taking ???
they always get electroshock therapy
but now she's feeling ok
she once OD'd on sleeping pills
and tried slashing her wrist
she drank four bottles of cough syrup
after throwing a fit
and she thinks her parents are such a drag
and then they treat her like a punching bag
I wonder if they'll let her listen to black flag
in the house anymore
she is rehabilitated
she's so glad that she can say
she is rehabilitated
she's feeling ok
she is rehabilitated
she's so glad that she can say
she is rehabilitated
she's feeling ok
now she's got her act together
a chance of making it
let's hope her stay at the hospital
proves to be theraputic
she doesn't run around like a lunatic
She won't be sniffing ??? to get kicks
Or be wiggling out like Charlie Chan's wigs
she's got herself under control
she is rehabilitated
she's so glad that she can say
she is rehabilitated
she's feeling ok
she is rehabilitated
she's so glad that she can say
she is rehabilitated
she's feeling ok
she's feeling ok
she's feeling ok
she's rehabilitated
