

The Rocket Summer, Do you feel

I'm thinking about other things
I heard about today
All this week and tomorrow
And how these hands can create
some better things, a better ring
but you see for now, I got my own things
I can help it,
I got too many issues I own.
So I cannot help I'm afraid, yeah
But keep on preaching, preaching and heal the world
Lip service makes up look great
Do you feel?
The weight of the world singing sorrow
Or do you is it just not real
Cause you got your things
Yeah we all have our things I guess
I guess my mind wanders off,
from time to time.
Sometimes I convince myself
that all is fine in the world
It's not mine
Why should I
have to try
to fix things I didn't create or contrive
Do you feel?
The weight of the world singing sorrow
Or do you is it just not real
Cause you got your things
Yeah we all so many things
Have the habits
Had you
Has it been for long
Can you feel the souls behind what's going on
Do you feel
The weight of the world singing sorrow
Or do you is it just not real
Cause you got your things
Yeah we all our things
[x2]
Do you feel
The weight of the world singing sorrow
Or do you is it just not real
Cause you got your things
Yeah we all so many things
And I can get past these things
Ohh
