

THE ROOP, Multiply

Bring the light and multiply
We need a source for life.
Let me help you on the ride.
Together we survive.

Sweet lights are in your eyes.
I see them, they invite us.
We run to catch our freedom without lies, away from dark.

Bring the light and multiply
We need a source for life.
Let me help you on the ride.
Together we survive.

Bring the light and multiply
We need a source for life.
Let me help you on the ride.
Together we survive.

Spotlights are in your mind.
Illuminate this moment.
The darkness I have seen is but a dim and distant dream.

One body
One body
One-body-da-oooh

Together
Together

Bring the light and multiply
We need a source for life.
Let me help you on the ride.
Together we survive.

Bring the light and multiply
We need a source for life.
Let me help you on the ride.
Together we survive.
