The Rutles, Between Us

I'm looking at you You're looking at me Between us, it's oh, so easy to see We were made for each other, girl We were made for each other

Between us Love has begun Between us Two hearts are one Between us Nothing can come between us

Whatever we do Whenever we kiss Between you and me, it's not hit n' miss We were made for each other, girl We were made for each other

Between us Love has begun Between us Two hearts are one Between us Nothing can come between us

Between us Love has begun Between us Two hearts are one Between us Nothing can come between us Between us Nothing can come between us Between us Nothing can come Nothing can come
