

# The Rutles, Now She's Left You

Do do do do do

Do do do do do

Do do do do do

Do do do

Now she's left you, left you for another guy

Now she's left you, and you feel you wanna die

She's no longer by your side and your tears you cannot hide

Now she's left you, my friend, now she's left you

Now she's left you and you're feeling so alone

Now she's left you sat beside a telephone

That pulls at your heartstrings every time it rings

Now she's left you, my friend, now she's left you

Your love is up to date, my friend, today

Yesterday has gone and tomorrow's on its way

Now she's left you, and you don't know what to do

Now she's left you, go and find somebody new

You have my sympathy 'cause she did the same to me

Now she's left you, my friend, now she's left you

Now she's left you, my friend, now she's left you

Do do do do do

Do do do do do

Do do do do do

Do do do do do do laaaaaaaa
