

# The Ruts, Out Of Order

You better calm down, said you better cool down  
You're burning white hot, you're over the top  
You're out for some action, some vital attracttion  
You're one of the boys, you bury your toys

You're out of order  
You're standing on the border  
You're out of order  
You're standing on the border

You better calm down, said you better cool down  
You're burning white hot, you're over the top  
Your life is in danger, you're still just a stranger  
You're one of the boys, you bury your toys

You're out of order  
You're standing on the border  
You're out of order  
You're standing on the border
