

The Ruts, Something That I Said

OK, kick them in the head
Just cause something that I said
You don't want to know the truth
Cause you're wild and full of you

Was it something that I said
Was it something that I said
Was it something in my head?

You ain't got no friends no more
Cause you kick them to the floor
Time will tel and you will see
That it's down to U know me

Was it something etc

OK, now you're on your own
You're selfrighteous loosing all
So get off your pedistole
Before you ain't got no friends no more

Was it something etc
