

# The Secret Handshake, Don't Count On Me

Don't read what I say  
Don't see me for now  
For now at all  
Don't read what i say  
Don't see me for now  
for now at all  
don't listen to me  
Don't see me for now  
For now at all  
At all  
I started thinking how could this happen  
How could this happen to me at all  
Falling right into you  
Into you  
Don't read what i say  
Don't see me for now  
For now at all  
Don't listen to me  
It doesn't come for free at all  
I'd like you to be  
Something that's real  
Something that's me  
To be, to be, to be  
I started thinking how could this happen  
How could this happen to me at all  
Falling right into you  
Into you  
I started thinking how could this happen  
How could this happen to me at all  
Falling right into you  
Into you  
Don't fall back on me  
On your way down  
Don't fall back on me  
On your wasted world  
Don't fall back on me  
On your wasted world  
I started thinking how could this happen  
How could this happen to me at all  
Falling right into you  
Into you  
I started thinking how could this happen  
How could this happen to me at all  
Falling right into you  
Into you
