The Secret Machines, Faded Lines

Faced with lies Don't you think that you just lie?

Caught inside Worlds made mostly of lies

Make up your mind 'cause it's all we love that's all Just faded lines

Overwhelmed Overjoyed is the same

Beneath the stillness the place where coldness meets cold

Make up your mind 'cause it's all we love that's all Just faded lines

And what else?

Yeah, I was scared The seconds dripped past so slow

But I just stood there I thought you should know
