

The Secret Machines, Sad And Lonely

Did you get your heartache and your head rush confused?
Have you been sleeping late 'cause you've been abused?
Are you alone?
Does it feel like those around want you to die?
Are you alive?

Did you grab your sleeping bag when you hit the floor?
Have you been feeling bad 'cause you've been a bore?
You're just lonely
And it feels like those around want you to die
You're alive

Was it loneliness that kept you or baby did you think it a curse?
Or were you grateful for the pleasure or baby do you think this is worse?

And it feel like those around want you to die
Well, sometimes does it feel like just crying
You're still in love with me and you don't know why
