

The Send, Say

Tell me you'll wait outside while the sky is pouring grey
Tell me you'll need to relieve yourself of me as well
Help me to feel unashamed as I hang you up to dry
Try to believe that I need some time not someone else

Right now I can't control me
I don't want to be the one that is holding
But fine if you would wait this out

Say to me you'll wait there forever
And never leave our love behind
Say, oh say you'll wait there, you'll be there
'Cause someday love I'll make you mine
Someday make you mine

Tell me you'll be alright if I put you on a shelf
Tell me that you need to wait for me, not someone else
