

# The Shirelles, Shades Of Blue

Baby, is there a world without you?  
What could there be without you?  
For every time it seems you're gone  
Somewhere you've been sighted  
The more you hold me tight  
The less I wanna go to sleep  
There's a world of sorrow, want no tomorrow  
Oh what would I be whenever I'm left without you?  
Shades of blue, shades of blue

Baby, is there a world without you?  
What could there be without you?

You know, there's something about the things you do  
Oh something about the things you say  
'Cause I've been missing you  
Lonely boy, you know oh oh  
There's a world of sorrow, want no tomorrow  
Oh what would I be whenever I'm left without you?  
Shades of blue, shades of blue, shades of blue

(repeat & fade):  
Baby, baby
