

The Simpsons, Those Were The Days

Boy, the way the beegies played
Movies John Travolta made
Guessing how much Elvis weighed
Those were the days

And you knew were then
Watching shows like "Gentle Ben"
Mister we could use a man like sheriff lobo again
"Disco Duck" and fleetwood mac
Coming out of my eight track
Micheal Jackson's still was black
Those were the days

Bart was feeling mighty blue
It's a shame what school can do
For no reason here's Apu
Those were the days
