

The Snakes, All Dressed Up

Waiting all day for the night to come down
There's a midnight sun hanging over this town
People getting high with a moonshine glow
Take your woman now and join the show
Drinking my fill from a loving cup
Cruisin' '61 in a pick up truck
Chokin' my beer soaking up my blues
Got her best dress on and hi-heel shoes
All dressed up all dressed up
Sure is time to rock and roll
All dressed up and ready to go
All dressed up....
Johnny and Rick knew how to hoochie coo
Well it's been a long time since we heard from you
Nothing changes you know its true
I got a good time peeling I wanna share it with you
All dressed up all dressed up
Now is the time to rock and roll
All dressed up all dressed up
Sure is the time to rock and roll
All dressed up and ready to go
(Solo)
If you are late and stuck up on 94
Take a right at Fifth and Rodeo
Put your foot on the gas
And your hand on her knee
Cause she's hotter than hell
And eager to please
All dressed up all dressed up
Now is the time for rock and roll
All dressed up and ready to go...
